In recent years , protecting the environment is being more and more important to the whole human beings.

It is everyone;s duty to do someting good to the environment around us. As middle school students , we can also do a lot of helpful things. For example , we can protect it by not throwing rubbish away. We can save water to make full use of it . We can use materials which do no harm to the enviorment. Thingd we can do are a great many. Only when we have the idea of loving our environment can we make a better place to live.

So everybody , let;s take action!
